## **SMEAR-MASTER CORSI PEDDLES MORE LIES ABOUT BARACK AND RAILA ODINGA**

Apparently publishing the slimiest attack book of the year against Barack Obama wasn't enough for the man behind the Swift Boating of John Kerry, Jerome Corsi.

He recently took a trip to Kenya to publicize some of the more bizarre and easily disproven lies in his book, but he got himself in some trouble with the local authorities and was deported. As soon as he got back, he was out peddling a completely fake, manufactured email allegedly from Barack to Rhaila Odinga. The email is so obviously made up, it's been openly mocked.

There's more to the smears behind Corsi's latest stunt. He apparently started with an email attack that earned a "pants on fire" rating from PolitiFact for truthfulness. The email claimed familial, financial, and political ties between Barack Obama and Kenyan politician, Raila Odinga, so all Corsi had to do when he "wrote" his book was commit it to paper. Everything in the email was debunked months before the book came out, but Corsi went with his illegitimate smears anyway.

The truth is Raila Odinga claimed to be related to Barack during a politically dangerous moment for himself, and no Kenya experts believe his claim. Having made that unsupported boast, even Odinga himself says he never received money from Obama, as the original smear email and Corsi's pathetic rehash would have us believe.

This latest ridiculous Corsi smear is turning up in email boxes all across the country. Fight back with the truth: make sure anyone who has seen this smear sees this site.
